

Give your clients the stories they would otherwise miss.

A hosted guest interview experience, planned to fit the event and easy to introduce.

WHAT IT IS

A skilled host invites natural conversations with the people your clients care about while a dedicated videographer records their stories, memories, advice, and personality.

It feels conversational and human, not like an unattended video booth or a line of prepared speeches.

HOW IT WORKS

1. Prepare

We align with you on the event plan, priority people, and any subjects to approach with care.

2. Invite

The host makes it easy for guests to settle into an actual conversation.

3. Preserve

The interviews become a Social Film and a Full Interview Film for your client.

Made to feel like part of the celebration.

We plan around the flow of your event, then make it easy for guests to settle into an actual conversation.
